

Japanese Flower Arranging – March 2010

Wendy Batson (above, left) of the Ohara School of Ikebana, with assistance from **Gerry Mooney** (right), provided a fascinating demonstration of Japanese flower arranging, known as *Ikebana*. During the demonstration, several arrangements were prepared using a variety of flowers, beautiful containers and natural fillers.

The meeting was held in the Metcalfe Client Services Centre. The layout of the room was ideal for the demonstration as Wendy was able to design her arrangements on three long tables slightly elevated from where we were sitting; so everyone had a good view.

Some of these arrangements created by Wendy and Gerry are shown in the photographs below.
