

## Seasonal Planters – October 2, 2013

At our October 2<sup>nd</sup> meeting Joanne Plummer from Mill Street Florist in Manotick entertained us with her creative genius preparing six planters of fall plants, fruits and vegetables. As she prepared each planter she gave tips on how to best display items and some of her techniques for holding foliage, fruits and vegetables in place.

At the end of the meeting six lucky members took home the displays that Joanne had created. It was an evening that everyone who attended seemed to enjoy immensely.
