

Big, Bold & Beautiful Plants in presentation

Annuals:

- Brassica oleracea* (Kale) –Ht. depends on variety 30-90cm, sun
- Helianthus* spp. Annual sunflower, Height depends on variety, sun
- Pennisetum setaceum* 'Rubrum' (Annual fountain grass)- full sun, 60cm-1.5m
- Phaseolus coccineus* (Scarlet runner bean)-**VINE** -sun
- Solenostemon* spp.(Coleus), Ht. depends on variety but can grow up to 1m, part sun
- Sorghum vulgare* (Annual Broom Corn) – full sun, 2-2.75m

Biennials:

- *Alcea* spp. (Hollyhock) – sun, 60-270cm, biennial but self-seeds so acts like a perennial
- *Angelica gignas* – 120-180cm, part shade, likes moisture
- *Salvia sclarea* (Clary Sage) – 90 cm., full sun

Bulbs, corms, tubers or tropical plants to overwinter indoors:

- *Allium giganteum* 'Globemaster' -25 cm flower on 100cm stalk, after flowering likes a dry summer bake
- *Bougainvillea* - **VINE** , sun (at least 5 hours per day)
- *Canna* 'King Humbert'- 120 cm., full sun
- *Crocsmia* 'Lucifer'- zone 6,sun/light shade, adequate moisture before & during bloom period
- *Eucomis bicolor* (pineapple lily) – 50 cm, full sun
- *Gladiolas*- 3 groups Grandiflora, Nanus, Primulinus, Ht. up to 1.6m, sun
- *Orienpet*(Yellow tree lilies) – 90-250cm,sun/part sun
- *Oxalis regnellii* 'Atropurpurea (purple oxalis) – part shade

Perennials

- *Aconitum carmichaelii* 'Arendsii' - 120cm, full sun/part shade, moist soil
- *Actaea racemosa*(Bugbane) – 120-150cm.,parial shade/full shade, moisture loving
- *Anemone* 'Honaire Joubert' – 90-120cm, full or part sun
- *Aruncus dioicus* (goatsbeard) – 15-180cm, part/full shade, fewer blooms in full shade, moist soil
- *Astilbe* spp. - Ht. varies by species 15-120cm, full sun/part shade, moisture loving
- *Baptisia australis*, (Blue False Indigo) – 90-120cm, sun, drought tolerant
- *Buddleja* spp.(Butterfly Bush) – actual shrubs but here in Ottawa die back severely, so cut back in spring & treat like a perennial, Height depends on variety, sun, well-drained soil
- *Calamagrostis actiflora* 'Overdam'- **GRASS**-120 cm, full sun
- *Clematis* spp.- **VINE**- 1.8-10 m depending on variety, sun with shaded roots
- *Cynara cardunculus*, (Cardoon plant) – Zone 7, 2.5 m, sun, protected area, well drained site
- *Delphinium* spp. – 90cm-2m, part shade/full sun

- *Digitalis* (Foxgloves) – 60-150 cm, part shade, soil which is humus rich, self-seed
- *Dracunculus vulgaris*(Dragon arum) – 1m, sun, moisture loving
- *Echinacea* spp. – Height depends on variety, full sun/light shade
- *Eutrochium maculatum* syn. *Eupatorium maculatum*, 210-300cm, sun/part sun, moist to wet soil
- *Ferns* spp. –Ht. & conditions required can vary, good website www.Ontarioferns.com
- *Filipendula* (Meadowsweet) – 60-240cm, part shade, excellent plant for bog gardens
- *Helleborus foetida* – 45-60cm., part shade, moisture early , tolerates moderate summer drought
- *Heliopsis* (False sunflower) – Height depends on variety, 60-180cm, full sun, long bloom of 12 wks.
- *Hemerocallis* spp.- Ht. depends on variety, 25-180cm,full sun/part shade, drought tolerant
- *Hibiscus moscheutos* 'Kopper King'- 1.2-1.5m,full/part sun, consistent moist soil
- *Hosta* 'Empress Wu' – 120cm Ht., 180cm spread, partial/full shade
- *Iris* spp., 10cm-120cm, sun
- *Levisticum officinale*(Lovage) – 2m, full sun/part shade, attracts parasitic wasps (a good thing!)
- *Liatris* spp.-60-150cm, full sun, drought tolerant
- *Ligularia przewalski* (The Rocket) – 120-180cm.ideal for bog gardens, shade from afternoon sun
- *Macleaya cordata* (Plume Poppy) – 180-300cm., 2.5 m., sun, moist well-drained, rhizome which self-seeds, need to restrain each spring to control
- *Micanthus sinensis* (Zebra Grass) – **GRASS**, full sun/part shade, 1.2-1.8m
- *Paeonia* spp.(Peony), 1-1.3m, sun
- *Papaver orientale*- 45-120cm, full sun/part shade
- *Parthenocissus quinquefolia*(Virginia creeper)- **VINE**, vigorous, sun/shade, leaves of 5
- *Persicaria polymorpha* (Giant Fleece Flower) – 1.2-1.8m, sun/part sun
- *Phlox* spp. – Height depends on variety, full sun/part shade
- *Polygonatum* spp. (Solomon's Seal) – partial to full shade, 30-90cm
- *Rheum palmatum* spp. (Ornamental rhubarb) – 2-2.75m, sun/part shade, moisture loving
- *Rodgersia podophylla* - full sun/part shade, 90-150cm, moisture loving
- *Rudibeckia* spp. – Height depends on variety, full sun/light shade
- *Sedum* spp.- Ht. depends on variety 10-60cm,full sun/part shade, drought tolerant
- *Silphium perfoliatum* (cup plant) – 2.1-2.5 m., full sun, self-seeds
- *Veronicastrum virginicum* (Culver's Root) – 120-180cm, native plant, full sun
- *Yucca* spp., 3m, full sun, well-drained soil, drought tolerant

Shrubs:

- *Heptacodium miconioides* (Seven-son flower) – 5-10m, sun/part sun
- *Hydrangea* spp.-Ht. depends on variety, full sun/part shade
