

Members' Gardens Tour – June 21, 2014

On Saturday, June 21, members of the GGG met at the Greely Community Centre to participate in an organized tour of five gardens of our Greely Gardeners Group members. This year, four of gardens visited were in Greely West and the fifth was on Bank Street.

We had a lovely sunny day for this year's members' gardens tour. Thanks very much to Carol Mitchell, Shelley Piercey, Jacque and Ivy Livingstone and Melody Tomka who welcomed us to their gardens and our answered questions.

As usual the gardens were all very different and had a great variety of plants, some familiar and some new. It is always interesting to visit other people's gardens and to appreciate the time and effort that goes into maintaining a garden.

Sharing ideas with our fellow members and enjoying each other's creations are two things that make the GGG a most welcoming group, and this makes our Members' Gardens Tour such an interesting annual event.

Many thanks go to the GGG Executive Committee for planning and organizing the event. The Executive Committee wishes to thank Carole, Shelley, Jackie and Ivy for inviting us into their gardens. A warm thank you goes to Melody Tomka for inviting us to visit her garden and for hosting a pot-luck picnic following the tour.

We look forward to visiting more of our GGG members' gardens next year.

Maybe we can visit your garden in 2015?
